

## FIBER-OPTIC SOLUTIONS

## FOR YOUR BUSINESS

### WHO ARE WE?

#### **We are a telecommunications leader.**

Unite Private Networks (UPN) provides high-bandwidth, fiber-based communications networks and services to schools, governments, carriers, data centers, hospitals, and enterprise business customers across a 20 state service area. Service offerings include dark and lit fiber, private line, metro-optical Ethernet, Internet access, data center services, and other customized solutions. We are headquartered in the Kansas City Metro area.

#### **We serve over 300 cities across 20 states.**

Our current network footprint reaches over 5,000 metro fiber route miles, and includes 2,500 on-net buildings. All are supported by a 24x7x365 NOC.

### WHY CHOOSE US?

#### **We are experienced.**

We're a team that believes in the power of strategic design thinking, coupled with hands on execution. Multi-faceted in our experience, we bring a variety of skills and methods to every project we take on. We're practical, direct, creative, collaborative, and we love what we do.

#### **We are metro fiber experts.**

We are experts in integration of new technologies into existing networks. Our services include: Ethernet 10 Mbps to 100 Gbps, dark fiber, scalable wavelengths, customized networks, greenfield construction, and fiber to the cell.
